The truth behind Sunroad's development at Montgomery Field. 01/18/07

Flannery

by Pat [top](#)[^]

Bob Kittle is mystified at "Sunroad's defiance of state and federal regulators" in [his editorial](#) today. He says: "*We are normally sympathetic to developers in their struggles with bureaucracies, but this is ridiculous*". It is far from ridiculous from Jim Waring's point of view. Just look at the satellite picture below.

Waring wants the FAA to withdraw Montgomery Field's operator's license! It's as simple as that. The reason is obvious - land.

Now look at that picture from Waring's point of view. All that developable land being wasted on an airport. Remember, Jim's DSD is in business - with the developers. They do the big development deals and DSD rakes in the big fees. Have you checked out DSD's parking lot lately? Notice all the BMWs and Lexus' not to mention the Mercedes'?

That piece of ground you see before you should be good for many more millions in developer fees and mega contributions to up and coming politicians like Tony Young. Did you know Tony was on the Airport Board? Did you know he is on Jim Waring's Land Use Committee? That's how our city is run. And all this time I thought Bob Kittle knew.
