Re: *MYF – Sunroad Centrum 12*

Dear Ms. McDonald, Mr. Brown and Mr. Haggerty:

We have reviewed Mayor Sander's letter to you dated May 18, 2007, in which he wrote "I support your findings that the building must be reduced in size so that it is no longer a hazard to public safety" *yet he proposes a compromise allowing for part of the building to continue to penetrate Part 77 surfaces.* The membership of the California Pilots Association urges the FAA to reject Mayor Sander's proposal. Any compromise will degrade FAA and CalTrans authority to follow through on important Part 77 procedures and regulations.

Sincerely,
