Re: *City of San Diego's position regarding the "Sunroad building"*

Dear Ms. McDonald:

On May 18, 2007, Mayor Jerry Sanders wrote the FAA and CALTRANS and made certain proposals regarding the Sunroad building and flight patterns at Montgomery Field. As President of the Community Airfields Association of San Diego (CAASD) I am writing to be sure you are aware that Mayor Sanders has abandoned those proposals. As you know, CAASD and several others promptly filed opposition.

In writing, with the media, and in several other ways, Mayor Sanders has more recently stated he fully supports the City's lawsuit against Sunroad, which seeks to have all portions of the building lowered to 160 feet AGL, or below. He publicly stated that he has been told by the FAA that it will not modify aviation-related procedures to accommodate the Sunroad building. If he has not already done so, I hope Mayor Sanders will communicate this new position to the FAA and CALTRANS in the very near future.

If you require any additional information, please feel free to contact me through the office of our organization's counsel, as set forth above. Please circulate this letter.

Sincerely,

Richard "Rick" J. Beach
President
Community Airfields Association of San Diego, Incorporated
