CITY OF SAN DIEGO MAYOR'S OFFICE

[MAYOR HOME](#) [ABOUT JERRY SANDERS](#) [CONTACT ME](#) [NEWS CENTER](#)

**A message from:**  
**Mayor Jerry Sanders**

Earlier today, at a news conference, Mike Aguirre asked me to issue a stop work order on the entire Centrum 12 office building project. While I support the concept of a full stop work order, given my responsibility to limit the taxpayers' liability, I first need to understand the implications of this action. My memo to the City Attorney details my request for this information.

I have strongly maintained that the Centrum 12 Office Building must be reduced in height to 160 feet. I don't believe that any person or company should be able to violate the law and get away with it. As such, I strongly support the City's case against Sunroad Enterprises and have acted proactively to bolster our case in court. Additionally, I have made clear that the Centrum 12 Office Building will not receive a Certificate of Occupancy until this issue is resolved.
